

Gym Floor Cover Rolls

The Next Generation of Gym Floor Covers

- 100% Recycled Polyester Topcloth
- Non-Skid Extruded Moisture Barrier Backing
- Wood Flooring

No other system on the market provides the combination of durability, upscale appearance, portability, and efficiency. The attractive, 100% recycled top layer looks and performs like carpet improving your facilities acoustics, while the non-skid backing prevents moisture penetration, keeping the floor underneath clean and dry. Our compact, custom designed, Lay-Up racking system, allows Eco Roll to deploy quickly and easily reducing labor costs, and takes up very little room when stored. Don't settle for heavy and unattractive vinyl covers. With GymPro Eco Roll, you can't afford not to protect your wood!

Protect Your Wood!
